Index of Authors of Articles in the Subject Index

This *Index* includes all articles included in the *Subject Index;* the numerical reference (arranged randomly) are to the *subject classification(s)* of the article. Classifications for different articles by the same author are separated by a semicolon; *page number(s)* for **abstracts** appear in italics in parentheses for articles with abstracts. If an article is written by two or three authors, each author is listed separately; if by four or more authors, it is listed under the first author only, followed by *et al.*

The list, produced by computer, is alphabetized letter by letter; the entry is then truncated to the last name and initials. This method leads to such anomalies as: (1) an author may be listed twice if only initials appear in one article and full name(s) in another; (2) alphabetization may appear to be incorrect on the second initial.

Index of Authors of New Books

This *Index* lists the authors of the books in the March, June, September, and December *Annotated Listing of New Books* by author, alphabetically, with their subject classifications (primary subject first), and "*JEL* numbers." (Note: "R.D." stands for "Related Disciplines.") If a book has more than one author, each name (up to three) is listed separately. Annotations are numbered consecutively by *JEL* number in the *Annotated Listing* section of each issue, as follows: March 85–0001 to 85–0334, June 85–0335 to 85–0637, September 85–0638 to 85–0915, and December 85–0916 to 85–1209.
